SUMMARY

Software Engineer pursuing a B.Tech in Computer Science & Information Technology. Skilled in Python, SQL, DSA, and Machine Learning, with a strong foundation in software engineering, object-oriented programming, and problem-solving. Passionate about transforming data into actionable insights, building scalable solutions, and continuously learning emerging technologies.

EDUCATION

Btech in Computer Science and Information technology , <i>IPS Academy Indore</i> 	09/2023 – Present
Higher Secondary , <i>Maharishi Vidya Mandir</i> 	02/2021 – 04/2022

SKILLS SUMMARY

• Technical Skills: Machine Learning, Object-oriented programming, Computer Network, DSA ,Data Analytics	• Languages : Python , SQL , HTML , CSS	• Frameworks & Libraries: Pandas, NumPy, Matplotlib, Seaborn, Excel	• Platforms : Visual Studio Code , Jupiter Notebook , PyCharm ,Cursor
--	---	---	---

PROJECTS

Smart Exam 	01/2026 – 03/2026
• Developed Smart Exam, an online examination system for conducting secure and efficient digital exams. • Implemented features such as question management, user authentication, timer-based tests, and instant result generation. • Enhanced exam security by preventing tab switching, copy-paste actions, and multiple window usage during exams. • Added activity tracking and monitoring mechanisms to maintain fairness and reduce cheating attempts. • Designed a user-friendly interface for students and administrators to make exam management faster, reliable, and scalable.	
Grilli 	02/2026 – 03/2026
• A luxury restaurant and cafe website template. • Includes a built-in table reservation system and interactive menu. • Fully responsive (mobile-friendly) with smooth animations. • Open-source project used to quickly launch a premium food business website. • Tech Stack: Built using HTML, CSS, and JavaScript.	
EDA & Feature Extraction 	04/2026 – 05/2026
• Built and trained machine learning models to predict results. • Performed data cleaning, feature engineering, and exploratory data analysis using Pandas and NumPy. • Evaluated model performance using accuracy, precision, recall, and confusion matrix. • Developed visualizations and insights to support data-driven decision making. • Tech Stack: Python, Pandas, NumPy, Scikit-learn, Matplotlib,Seaborn , Jupyter Notebook.	

PROFESSIONAL EXPERIENCE

Bluestock Fintech  , <i>Data Analyst</i>	04/2026 – 06/2026 Remote
• Worked on real-world fintech and stock market datasets for analysis and reporting • Performed data cleaning, preprocessing, and transformation using Pandas/Python • Created analytical reports and dashboards for business insights • Executed multiple assigned tasks within deadlines while collaborating remotely • Improved data analysis and problem-solving skills through practical projects • Learned and applied tools like SQL, Excel, Python, Power BI during internship	

CERTIFICATES

IIT BOMBAY 	IIT BOMBAY 	Internshala 	Scaler 
• Completed Python Certification from IIT Bombay with hands-on experience in Python programming, problem-solving, data handling, and application development.	• Completed SQL Training from IIT Bombay, building a strong foundation in database management, SQL queries, and relational database concepts.	• Completed Web Development Training from Internshala, gaining hands-on experience in HTML, CSS, JavaScript, responsive design, and building dynamic web applications	• Completed SQL Training from Scaler, gaining hands-on experience in SQL queries, joins, subqueries, relational databases, and data management operations.

ORGANISATIONS

Nation Service Scheme , <i>Student Volenteer</i>	10/2023 – Present Indore,India
• Active NSS Volunteer with strong teamwork, leadership, communication, and community engagement skills gained through social service and awareness programs.	
IMS Institute , <i>Teacher</i>	06/2024 – 08/2025 Indore,India
• Worked as a Teaching Assistant at IMS Institute, developing strong communication, mentoring, presentation, and student engagement skills while supporting academic learning and problem-solving.
